

Advanced HTML, CSS & JavaScript Project Challenges

Build each project using only HTML, CSS and JavaScript. Do not use React, databases, or external libraries unless instructed.

Project 1 - Personal Finance Tracker ■■■■

Scenario: Build a web application for recording daily expenses.

Requirements:

- Form fields: Expense Name, Category, Amount, Date.
- Store expenses in an array of objects with id, name, category, amount and date.
- Display expenses in an HTML table.
- Each row must have Edit and Delete buttons.
- Show Total Expenses, Highest Expense, Lowest Expense, Average Expense and Number of Expenses.
- Implement Search by name.
- Filter by category.
- Sort by amount and date.

Bonus:

- Display a pie chart of spending by category (optional).

Project 2 - Movie Collection Manager ■■■■

Scenario: Build a movie collection manager.

Requirements:

- Store id, title, genre, year, rating and watched status.
- Display movies as cards.
- Add, Edit and Delete movies.
- Search by title.
- Filter by genre.
- Sort by rating and year.
- Display Total Movies, Average Rating, Highest Rated Movie, Newest Movie and Oldest Movie.

Bonus:

- Add a Favourite feature and display favourite movies first.

Project 3 - Kanban Task Board ■■■■

Scenario: Create a Trello-style task board.

Requirements:

- Three columns: To Do, Doing and Done.
- Every task has title, description, priority and deadline.
- Add, Edit and Delete tasks.
- Move tasks between columns.
- Display Total Tasks, Completed Tasks, Completion Percentage and Overdue Tasks.

Bonus:

- Allow reordering tasks inside the same column.

Project 4 - Pokémon Team Builder ■■■■

Scenario: Build a Pokémon team builder.

Requirements:

- Store id, name, type, level, hp and attack.
- Show Available Pokémon and Current Team.
- Maximum team size is 6.
- Add and remove Pokémon.
- Search, filter by type, sort by level and attack.
- Display Average Level, Average HP, Average Attack, Strongest Pokémon and Team Power.
- Prevent duplicate Pokémon.
- Display 'Team is Full' when six Pokémon have been selected.

Bonus:

- Highlight the strongest Pokémon in the team.
